Re: NOVEL CARBONYL REDUCTASE, METHOD FOR PRODUCING SAID
ENZYME, DNA ENCODING SAID ENZYME, AND METHOD FOR
PRODUCING ALCOHOL USING SAID ENZYME

Applicant: Norihiro Kimoto et al.
Application No.: 09/855,309
Filing Date: May 14, 2001
Country: United States
Your Ref.: D1-008DP1-USD1
Our Ref.: 14879-050002

Dear Ms. McDowell:

Preston Wallace of the Applications Branch suggested that we correspond with you in order to rectify a Notice of Abandonment mailed by the U.S. Patent and Trademark Office in error. According to Mr. Wallace, the Notice of Abandonment (copy enclosed) was issued because the U.S. Patent and Trademark Office has no record of receiving our response to a Notice to Comply with Requirements for Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures mailed June 29, 2001 (the "Notice to Comply"). In fact, on August 29, 2001, we duly filed a response to the Notice to Comply, and the U.S. Patent and Trademark Office received that response on September 4, 2001, as evidenced by the attached:

- (1) Copy of the Applicants' Response to the Notice to Comply bearing a certificate of mailing signed August 29, 2001, indicating that the Response to the Notice to Comply was deposited with the U.S. Postal Service on that day, as first class mail.
- (2) Copy of the postcard stamped by the U.S. Patent and Trademark Office on September 4, 2001, indicating receipt of Applicants' Response on that date.

We therefore request that the Notice of Abandonment be withdrawn.

FISH & RICHARDSON P.C.
